Mazel Tov!

Rabbi Neuhaus first grade piled into Rabbi Muller's office to read together the last posuk of Parshas Bereishis. What an accomplishment!

Pi day

Every circle, no matter the size, has a secret number known as pi. When you divide the circumference by the diameter, you will discover it is 3.14159 every time! 4th graders investigated and proved that this is possible even in our classroom.

To Shteig With

A peek at our newly stocked seforim shrank with over \$10,000 worth of new seforim for our boys to shteig with! Wow! Thank you Rabbi Pinkus for your efforts.

Making it Come to Life

Rabbi Abramowitz's 5th grade acting out a shtetl gemorah with geshmack!

1st Grade Chumash Mesiba

Our first graders reached a very important milestone this week, Hascholas Chumash. Through a beautiful performance, the girls expressed their love and excitement for learning Chumash

4th Grade State Fair

On Tuesday, the fourth grades presented their State Fair. Each girl created her own slide for the slide show and display board, showing important factual information each received after contacting state agencies in specific states. Every girl dressed in costume representing her state.

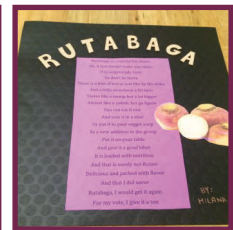

3rd Grade Literature

Mrs. Moalem's class read the interesting book "Hundred Dresses", which deals with bullying. Every girl enjoyed designing her own dress.

Nutrition in 7th Grade

The assignment in Mrs. Brumer's science/nutrition class was for the girls to eat a fruit that they had not eaten before. They then had to write a poem using adjectives to describe their food. These fruits and vegetables ranged from a common tomato or mushroom, to a more exotic fruit like a kumquat or persimmon. The girls had fun reading their poems aloud in class. It was a "fruitful" project!
